\* Have you ever *wondered* \*  
if there's a *hidden* key to under-  
standing the universe, something  
\* even more *profound* than the  
\* \* \* laws of physics? \* \* \*

A letter from Albert Einstein addressed to his daughter Lieserl, proposes just that: love is the key. This isn't a scientific paper filled with equations, but rather a deeply personal *reflection* on a force Einstein believed to be the most powerful in the cosmos. It's like stepping into a warm embrace to discover the beautiful and heartwarming ideas nestled within this letter. Imagine a gentle whisper revealing a profound truth about love – not just as a fleeting emotion, but as a force so fundamental it touches the deepest mysteries of \* the universe. \*

“Dear Lieserl,  
when I proposed the theory  
of relativity, very few people under-  
stood me. What I will now reveal about  
humanity will also be met with misunder-  
standing and prejudice. I am asking you to \*  
preserve my letters for as long as necessary:  
years, decades until *society* has progressed \*  
enough to accept *what* I will *explain* below.

A 10x10 grid of asterisks (\*). The grid is composed of 100 asterisks arranged in 10 rows and 10 columns. The asterisks are black and are set against a white background.

There is a force so powerful that to date science has not \*  
\* been able to find an explanation for it. It is a force that encompasses *&* rules all; that lies behind every phenomenon in \* the **universe**. This force is love. When \* scientists searched for a unified theory of the *universe* they forgot the most \* **powerful** invisible force. \*

\* \* \* \* \*

Love is the light that illuminates

those who give it and receive it. Love

\* is gravity because it makes some people  
attracted to otHERs. Love is power **because**  
it multiplies our best and keeps people from  
losing themselves in blind selfishness. Love

unfolds and reveals. We live and die for \*

love. Love is God and God is love.

This force explains everything,  
\* gives meaning to life. It is exactly \*  
what we have overlooked for so long,  
perhaps because we are afraid of love,  
because it is the only energy in the \*  
\* universe that man has not yet \*  
\* learned to manipulate. \*

\* \* \* \* \*

To give love the *place* it *deserves*  
I made a simple change to my most  
famous equation. If instead of  $E = mc^2$   
we accept that the energy that heals the \*  
world can be obtained by multiplying love  
with the speed of *light* squared, we would  
\* conclude that love is the most power-  
\* ful force that exists... because it \*  
\* knows no limits. \*

\* \* \* \*

\* After humanity's failure \*

\*to harness the *forces* of the *universe* \*

that have turned *against* us it is important \*  
to *nurture* anotHER kind of *energy*. If we want  
the survival of the species, if we want to find  
\* the meaning of **life**, if we want to save the \*  
world and every living **thing** that populates  
it, **love** is the only answer. Perhaps we are  
not yet **ready** to invent a **love bomb**, a  
powerful device to destroy the hat-  
red, selfishness and greed that  
are eroding the planet.

However, each individual carries  
a small but powerful “generator” of love  
whose energy is waiting to be released. Then \*

\* when we learn to give and receive this universal  
energy, my 4 dear Lieserl, we will confirm that love  
rules over everything; love is able to *overcome* every-  
thing, because love is life. I deeply regret that I have  
not been able to express what my heart has been \*

\* beating for you all my life. Maybe it's too late  
to apologize. But since time is relative, I \*  
\* want to tell you that I love you. \*

\* Thanks to you I found \*  
the basic answer.”

\* \* \* \* \*

Your fat**HER**, Albert Einstein.
